**V. K. Raman**, one of the leading young flautists in the Carnatic style of music, began his music training at a very young age and started giving concerts at the age of 15. He has performed at many prestigious organizations in India and abroad, including several flute duets with his teacher, the great flute maestro Dr. N. Ramani. In addition to earning accolades for his music in India, Raman has toured widely for his performances in the USA, Canada, Britain, Belgium, France, Germany, Srilanka and Japan.

Raman has mastered the art blowing and fingering techniques that render the tonal quality of his instrument at its peak. Connoisseurs for his melodic renditions, purity of notes and elucidation of Ragas with tonal purity and perfect pitch alignment have appreciated him.

A creative and innovative composer, Raman has 35 CD's to his credit. He has also performed in fusion concerts and has worked with world class musicians such as Glen Velez (Grammy winner), Dr. L. Subramaniam, Louis Banks, Charlie Mariano and Jamey Haddod.
